

## Technical Data Sheet

Page 1 of 1

<b>Properties:</b>	<p>AKEMI® Triple Effect is a watery product which contains highly effective, modified organic compounds, combined with cleaning components which do not form layers. The product is supplied in a pump spray bottle and is characterized by the following qualities:</p> <ul style="list-style-type: none"><li>- reduced water absorption during periods of moisture</li><li>- oil- and grease repellent effect</li><li>- low adhesion of colours on treated stone surfaces (anti-graffiti effect)</li><li>- maintenance of breathing properties</li><li>- resistant to UV radiation</li><li>- tack-free hardening</li><li>- slight or almost no colour intensification</li><li>- no odour nuisance</li><li>- after hardening the product is harmless to health upon contact with food products, certified by an external German testing institute</li></ul>
<b>Application Area:</b>	<p>AKEMI® Triple Effect is suited for the regular cleaning, care and protection of absorbent, fine ground or polished natural and artificial stones (such as marble, granite and concrete ashlar) in one operation on window sills, tables, kitchen tops or other small areas. AKEMI® Triple Effect removes slight staining and excellently supports and supplements the efficiency of impregnations.</p>
<b>Instructions for Use:</b>	<ol style="list-style-type: none"><li>1. Shake well before use, then open spray nozzle.</li><li>2. Best working temperature: 15-25°C (59-77°F).</li><li>3. Spray on evenly and wipe off with a clean and dry cloth.</li></ol>
<b>Special Notes:</b>	<ul style="list-style-type: none"><li>- Even on surfaces treated with AKEMI® Triple Effect, it is possible that spots form after a long exposure time by aggressive products, s.a. juice, vinegar, alcohol or cosmetics. Yet, this formation is by far lower as on surfaces not being treated with AKEMI® Triple Effect. Spots can be avoided by immediately removing those aggressive products.</li><li>- Slight colour enhancement is possible.</li><li>- Stubborn staining should be treated with more intensive cleaners (s.a. AKEMI® Stone Cleaner).</li><li>- A surplus of product may cause spotting or streaks (can be removed with AKEMI® Cleaner I).</li><li>- Not suited for glazed and non-absorbent surfaces.</li><li>- For adequate waste disposal container must be completely emptied.</li></ul>
<b>Technical Data:</b>	<p>Colour: colourless, yellowish Density: approx. 1 g/cm<sup>3</sup></p>
<b>Storage:</b>	<p>2 years if stored in cool place free from frost in its tightly closed original container.</p>
<b>Health &amp; Safety:</b>	<p>Read Material Safety Data Sheet before handling or using this product.</p>
<b>Important Notice:</b>	<p>The above information is based on the latest stage of development and application technology. Due to a multiplicity of different influencing factors, this information – as well as other oral or written technical advises – must be considered as non-binding hints. The user is obliged in each particular case to conduct performance tests, including but not limited to trails of the product, in an inconspicuous area or fabrication of a sample piece.</p>
